3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Transatlantic Tele-
5 communications Security Act”.

1 **SEC. 2. STATEMENT OF POLICY.**

3 gress that—

4 (1) Fifth-generation telecommunications net-
5 works in allied and partner countries based on com-
6 mon, secure, transparent, democratic standards have
7 the potential to increase cultural, political, and eco-
8 nomic exchanges leading to mutual job creation,
9 closer citizen relations, and stronger democratic in-
10 stitutions;

11 (2) the United States has national security and
12 economic interests in assisting Central and Eastern
13 European countries to improve the security of their
14 telecommunications networks by reducing depend-
15 ence on covered telecommunications equipment or
16 services that are often offered with predatory eco-
17 nomic inducements, and replacing them with secure
18 telecommunications equipment or services;

19 (3) China's Belt and Road Initiative and the
20 17+1 Initiative seek to undermine Central and
21 Eastern Europe's infrastructure resilience and sov-
22 ereignty through predatory inducements from state-
23 linked providers of telecommunications equipment or
24 services such as Huawei Technologies Company and
25 ZTE Corporation;

1 (4) the United States must assemble a coalition
2 of democratic and like-minded allies and partners to
3 counter the rise of global malign actors such as
4 China and Russia, and build resilience in Central
5 and Eastern Europe against malign influences; and

6 (5) in order to ensure robust military coordina-
7 tion and interoperability with the North Atlantic
8 Treaty Organization (NATO) and transatlantic al-
9 lies and partners, the United States should ensure
10 that allies' and partners' telecommunications net-
11 works are secure and free from potential threats in
12 accordance with the 2019 NATO London Declara-
13 tion.

14 (b) STATEMENT OF POLICY.—It is the policy of the
15 United States—

16 (1) to strengthen the transatlantic alliance
17 based on shared values in the face of rising malign
18 influence from the Russian Federation and the Peo-
19 ple's Republic of China, nations that seek to under-
20 mine democratic institutions and values;

21 (2) to encourage public and private sector in-
22 vestment in European telecommunications infra-
23 structure projects to ensure secure telecommuni-
24 cations and to catalyze economic advancement

1 through the highest standards of transparency, ac-
2 cessibility, and competition;

3 (3) to provide economically feasible alternatives
4 to financing from providers of covered telecommuni-
5 cations equipment or services;

6 (4) to engage in diplomacy with European allies
7 and partners to strengthen United States and Euro-
8 pean private sector efforts to develop common tele-
9 communications technology and industry standards,
10 and in turn promote them globally;

11 (5) to support the Three Seas Initiative orga-
12 nized by twelve Central and Eastern European coun-
13 tries of the European Union to increase infrastruc-
14 ture resiliency and reduce reliance on malign actors,
15 including in the telecommunications space; and

16 (6) to support the people of Ukraine, Moldova,
17 Georgia, and the Western Balkan countries in their
18 desire for integration into euro-Atlantic institutions
19 and economies through enhanced cross-border tele-
20 communications infrastructure connectivity.
